

UK Hydro Installations

It is important to us that the information we hold about existing hydro installations in the UK is comprehensive and accurate. Keeping it up to date is therefore an ongoing process. Please help us to do this by advising us of any schemes not already included on our website (whether you are the site owner or not) and by keeping us informed of new schemes or changes to existing schemes as you become aware of them.

Please use this form to help to keep us up to date by completing one for each scheme and sending it in to BHA, Unit 6B Manor Farm Business Centre, Gussage St Michael, Wimborne Dorset BH21 5HT. Additional forms can be downloaded from our website (www.british-hydro.org). THANK YOU!
